RE: AIRCRAFT MAINTENANCE COMPETITION

The ALAEA is seeking expressions of interest from members to represent the ALAEA at the 2024 Aerospace Maintenance Competition (AMC) to be held in conjunction with MRO America's in Chicago Illinois, April 8 – 11 2024. We would also like to advise that Team ALAEA 2024 has partnered with Snap-On Industrial who will be there to support us through our journey. Five positions are available on the team consisting of 3 x B1's and 2 x B2 engineers.

Members from airlines, regionals, general aviation, and rotary wing are encouraged to apply as we require a diverse range of skills. The ALAEA has competed in the AMC since 2010 and always perform well as a team. It will be an unforgettable experience.

The AMC is a venue for teams of certificated Aircraft Maintenance Technicians, Aircraft Maintenance Engineers, Inspectors, and students enrolled in either FAA, EASA, CASA, or equivalently authorised schools as well as personnel of any country's Armed Forces that are involved in the aircraft maintenance and spacecraft maintenance field. Uncertificated Aircraft Technicians and Aircraft Engineers employed with an MRO/OEM company are also eligible to compete. The AMC is an opportunity for today's and tomorrow's skilled Aviation Maintenance Professionals to test their combined abilities against those of their peers.

Reasonable funds for travel, meals, and accommodation will be provided for the team but you will need to make your own arrangements for leave from work. If you are interested, please fill out and submit the attached form no later than 10 November 2023. Should you have any questions, please feel free to contact me.
